

ACTIVITY REPORT FOR THE PERIOD 1st APRIL 2017 – 31st MARCH 2018

What we have been doing:

Educating and enhancing the skill set of doctors, nurses, technicians, and students

Organizing and promoting medical programmes, conferences, and workshops

Inspiring a culture of better interaction and peer learning

The MOMS Course:

We collaborated with The East London International Women's Health Appeal (Elly), London team and conducted a very productive Multidisciplinary Obstetric and Midwifery Simulation course at the government-run Modern Government Maternity Hospital at **Petlaburj**, Hyderabad on 30th November and 1st December. Over 100 delegates attended the event from Government Hospitals across the State of Telangana.

Keeping a PROMISE

The UNICEF Connection:

We have formed an alliance with the Telangana Government and UNICEF, to develop the professional midwifery skills of nurses in the State. 26th October 2017 marked the beginning of a new era in maternal health with the launching of the professional midwifery nurse practitioner diploma course by the Honorable Health Minister Dr. C. Laxma Reddy at the Mother & Child Health Center, Karimnagar. This is an 18 months training programme, the first of its kind in the country. Telangana State has the highest CSR in the country. Research has shown, when Professional Midwives are the lead carers of women in labour and birth, there is a reduced incidence of unnecessary medical interventions and C-sections with the mothers' experience of birth being more positive.

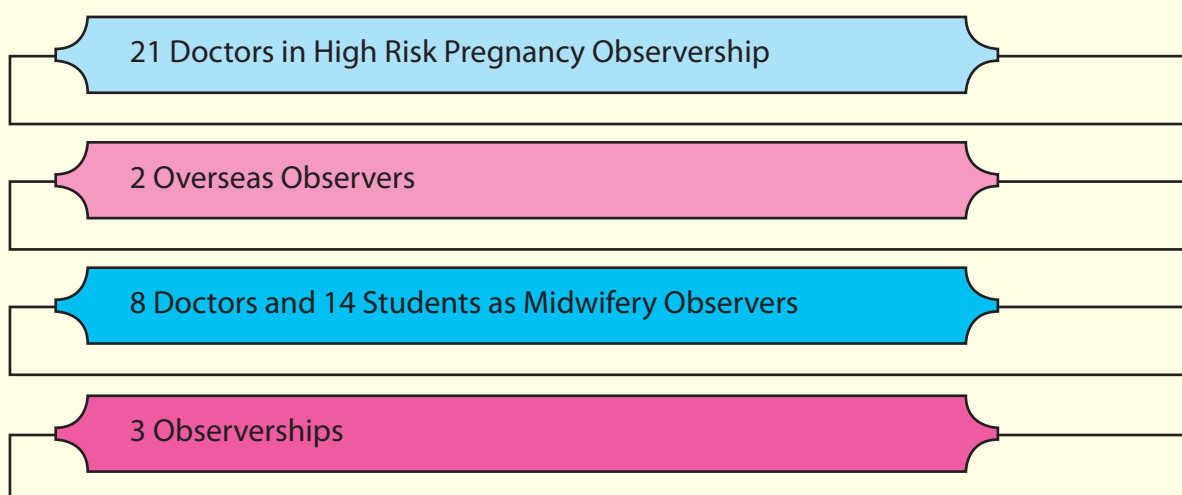

Workshops we conducted:

We have received requests from all over the country for conducting workshops. We believe that knowledge is best when shared, and thus we have made our presence felt in Karimnagar, Karad, Navi Mumbai, Pune, Rajahmundry, Latur, Baroda, Vijayawada, Bangalore, Nasik, Amaravati, Prodatpur, Chennai, Thrissur and Cochin. Listed below are few of the important workshops that we conducted this year.

- Neonatal Ventilation Workshop, Gujneocon, Baroda, Gujarat
- Professional Midwives & Obstetricians – Role in Labour, Life Hospital, Nandiyal, Kurnool Dist.
- Labour Ward Protocols, Barmade Hospital, Latur, Maharashtra
- Midwives Train Nurses to Handle Obstetric Emergencies, Fernandez Hospital, Hyderabad

- Fetal Monitoring Workshop, West Zone YUVA, FOGSI 2017, at CIDCO Convention Centre, Navi Mumbai
- Fetal Monitoring Workshop, Rajahmundry
- Instrumental Delivery Workshop, Fernandez Hospital, Hyderabad
- Basic Colposcopy Workshop, Fernandez Hospital, Hyderabad
- Human Rights in Childbirth & Respectful Maternity Care, Baptist Hospital, Rangadore Memorial Hospital, Bangalore
- Labour Ward Protocols Workshop, Amravati
- Multidisciplinary Obstetric and Midwifery Simulation Workshop, Stork Home, Hyderabad & MGMH, Hyderabad
- Respectful Maternity Care (ROAR WORKSHOP) at Stork Home (4 sessions), Mother & Child Health Centre, Karimnagar, Pune, Chennai, Thrissur, Cochin
